

**Alignvest Student Housing Real Estate Investment Trust
Management Report | Q1 2024**

Alignvest Student Housing REIT ("ASH REIT" or the "REIT") is Canada's largest university-focused student housing owner / operator, with 5,302 beds across 13 properties.

Message to Unitholders

We are pleased to present the ASH REIT Q1 2024 Management Report to our unitholders.

We have had a very busy start to 2024 and are expecting a successful year for our REIT. The macroeconomic environment has shown signs of stabilization and opportunity. Interest rates have come down from their peak in Q4 2023. Further, CMHC financing has become more accessible to developers and investors, which has materially impacted our ability to positively underwrite acquisitions.

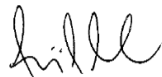

We kicked off the year with the acquisition of 417Nelson in Ottawa in February. This site nicely complements our other Ottawa properties and is conveniently located only a few minutes walk from the University of Ottawa. Continuing our growth trajectory, in April we announced the acquisition of 308 King in Waterloo, with an expected closing in late May. It's important to note that we have spent several years working to secure both of these transactions. Our deep relationships and expertise provide us with a unique advantage compared to other investors in the sector. We have a robust pipeline of additional acquisition opportunities for continued growth.

With this report, we enclose our 2023 audited financial statements (also available on our website) and have included important financial and operating metrics. We are pleased with the results we have delivered to our investors, including a 3.2% return in Q1 2024 and 12.4% annualized since inception (both are to Class F unitholders participating in our DRIP).

Our 2024 pre-leasing season is off to a strong start. We are already almost 83% pre-leased for September 2024 at our privately-managed properties and are projecting a 21.8% gap-to-market on sitting rents when compared to current tenant lease rates. We are also pleased to confirm that the Canadian governments recent announcements to reduce the number of international student visas has not impacted the demand we continue to experience across our portfolio.

With a strong acquisition pipeline in front of us, we are actively raising capital to pursue multiple opportunities and continue our expansion across Canada. The future looks strong, and we are confident in our strategy and the corresponding returns for our investors. We are grateful for your continued support.

Sincerely,

Sanjil Shah
Managing Partner

Overview

ASH REIT launched in June 2018 as the first pure-play investment vehicle focused on the Canadian student housing real estate sector. The REIT is focused on consolidating the fragmented asset class across tier-1 Canadian university markets at attractive valuations.

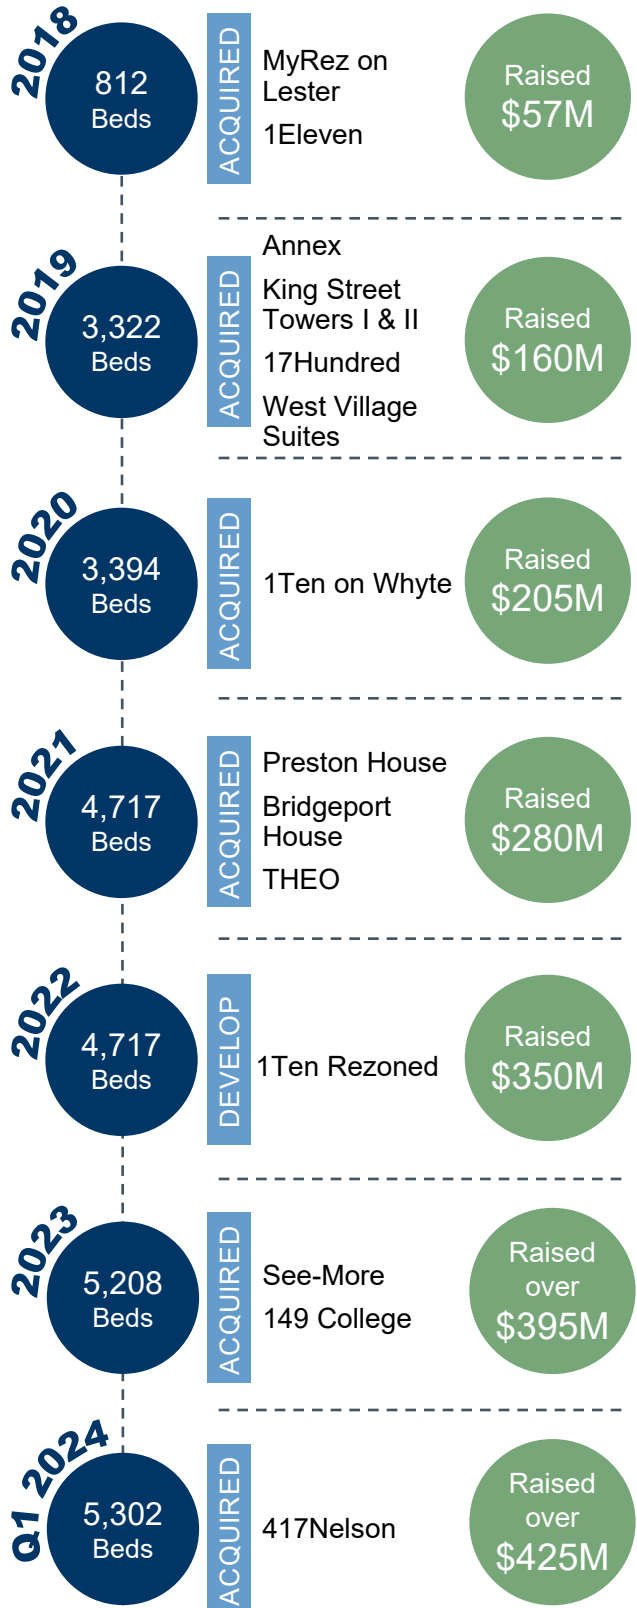

Since inception, the REIT has successfully raised over C\$425 million of equity capital from a diverse array of investors, including retail, ultra high-net-worth individuals, and family office investors⁽⁷⁾⁽⁸⁾. ASH REIT is now Canada's largest university-focused student housing owner and operator by bed count, with 5,302 beds across 13 properties in six university markets, including Halifax, Ottawa, Hamilton, Waterloo, Oshawa and Edmonton.

Strategy and Objectives

The REIT is focused on building the leading student housing business in Canada by acquiring and developing premier on- and off-campus purpose-built student housing properties and implementing best practices through active on-site management.

Firm History⁽⁸⁾⁽⁹⁾

Non-IFRS measures: Funds from Operations and Adjusted Funds from Operations

Funds from Operations (“FFO”) is an industry-wide standard measure of a real estate entity’s operating performance. Adjusted Funds from Operations (“AFFO”) is a non-IFRS financial measure to assess FFO after taking into consideration capital invested to maintain the earning capacity of a real estate portfolio. FFO and AFFO do not have a standardized meaning under International Financial Reporting Standards (“IFRS”) and are considered non-IFRS financial measures; therefore, they may not be comparable to similar measures presented by other real estate entities. These measures should be considered as supplemental in nature and not as a substitute for related financial information prepared in accordance with IFRS.

FFO and AFFO are computed in accordance with the current recommendations of the Real Property Association of Canada (“REALPAC”), with the exception of the adjustment for non-controlling interests, as Management assesses the REIT’s performance based on the operations at Canadian Student Living Group LP (“CSL”) and the values attributable to the REIT and other limited partners of CSL are the same.

Management believes significant judgement is required to determine the annual capital expenditures related to maintaining the earning capacity of an asset, compared to capital expenditure that generate higher rents or more efficient operations. The adjustment related to maintenance capital expenditure is based on actual expenses incurred.

The following table provides a reconciliation from increase in net assets attributable to unitholders to FFO and AFFO:

	Year ended Dec 31, 2022	Year ended Dec 31, 2023	Three months ended Mar 31, 2023	Three months ended Mar 31, 2024
FFO and AFFO ⁽¹⁵⁾				
Increase (decrease) in net assets attributable to unitholders	\$13,233,139	\$90,350,482	\$799,059	(\$1,457,224)
Adjustments:				
Add (Less): Fair value adjustment on investment properties	(32,044,540)	(124,618,589)	(1,896,436)	845,090

Non-IFRS measures: Normalized Funds from Operations

Normalized Funds from Operations (“NFFO”) is a non-IFRS financial measure that adjusts AFFO for certain items, mainly non-recurring and not operational in nature, such as undeployed capital, where Management has assumed the use of cash-on-hand to repurchase units of the REIT at Fair Market Value, which reduces the corresponding cash distributions paid during the period. Other adjustments include portfolio stabilization measures related to gap-to-market rents and ancillary income. Management believes NFFO is a better measure of the REIT’s current cash-generating capacity than FFO as it presents the portfolio on a normalized basis.

	Year ended Dec 31, 2022	Year ended Dec 31, 2023	Three months ended Mar 31, 2023	Three months ended Mar 31, 2024

In February 2024, the REIT repaid the outstanding mortgage at 1Ten. Separately, the REIT has secured a short-term extension of the expiring loan at West Village Suites/17Hundred while Management evaluates and negotiates refinancing terms with multiple lenders. The refinancing is expected to result in a favourable equity takeout.

Disclosures and Disclaimer

This communication is for information purposes only and is not, and under no circumstances, is to be construed as an invitation to make an investment in ASH REIT. Investing in units of ASH REIT involves risks. There is currently no secondary market through which units of ASH REIT may be sold and there can be no assurance that any such market will develop. A return on an investment in units of ASH REIT is not comparable to the return on an investment in a fixed-income security. The recovery of an initial investment is at risk and the anticipated return on such an investment is based on many performance assumptions. Although ASH REIT intends to make regular distributions of its available cash to Unitholders, such distributions may be reduced or suspended. The actual amount distributed will depend on numerous factors, including ASH REIT's financial performance, debt covenants and obligations, interest rates, working capital requirements and future capital requirements. In addition, the market value of units of ASH REIT may decline if ASH REIT is unable to meet its cash distribution targets in the future, and that decline may be material. It is important for an investor to consider all of the particular risk factors described in the Offering Memorandum of the ASH REIT that may affect the industry in which it is investing and therefore, the stability of the distributions that it receives. There can be no assurance that income tax laws and the treatment of mutual fund trusts will not be changed in a manner which adversely affects ASH REIT.

PAST PERFORMANCE MAY NOT BE REPEATED. Investing in units of ASH REIT can involve significant risks and the value of an investment may go down as well as up. There is no guarantee of performance. An investment in ASH REIT is not intended as a complete investment program and should only be made after consultation with independent investment and tax advisors. Only investors who do not require immediate liquidity of their investment should consider a potential purchase of units of ASH REIT. The risks involved in this type of investment may be greater than those normally associated with other types of investments. Please refer to the ASH REIT Offering Memorandum for a further discussion of the risks of investing in ASH REIT.

Forward Looking Information

This document contains "forward-looking information". Forward-looking information includes, but is not limited to, targeted annual net returns, targeted adjusted funds from operations ("AFFO") distribution and payout ratio, optimization of asset level NOI growth, the overview of long term debt of the REIT including interest rates and maturity, revenue and net operating income projections, anticipated net operating income and margins of the REIT, adjustment of funds from operations from the REIT, information with respect to the operations, capital raising efforts of the REIT, building the portfolio of the REIT, growth of the asset base of the REIT, growth of the student asset portfolio and sector generally, occupancy levels of assets and rent collection.

Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "potential", "targets" or "targeting", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes" or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might", or "will be taken", "occur", or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the REIT, to be materially different from those expressed or implied by such forward-looking information, including risks associated with the real estate equity industry such as economic and market conditions, the ability to raise sufficient capital, the ability to identify and conclude acquisitions of suitable investment opportunities and complete liquidity events on favorable terms. Implicit in this forward-looking information are assumptions regarding the general economy, debt financing availability, availability of investment opportunities, interest rates, industry growth rates, correct analysis of industry trends, ability to unlock synergies in new assets, and favorable valuations when purchasing new assets. These assumptions, although considered reasonable by the REIT based on information currently available to it, may prove to be incorrect. Although the General Partner has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The REIT does not undertake to update any forward-looking information, except in accordance with applicable securities laws.

The forward-looking statements contained in this document reflect the current beliefs of the Trustees and management of the General Partner of Canadian Student Living Group LP with respect to future events and are based on information currently available. These statements involve significant known and unknown risks, uncertainties and assumptions. Many factors could cause the REIT's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, without limitation, those listed in "Risk Factors" of the ASH REIT Offering Memorandum. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results, performance or achievements could vary materially from those expressed or implied by the forward-looking statements contained herein.
